DATA DEMYSTIFIED:

PRACTICAL WAYS TO USE DATA TO INFORM YOUR WORK

SKILLS-BASED WORKSHOPS

WORKSHOPS FROM 1:30PM-3:30PM

\$30 PER PERSON

SET THE FOUNDATION FOR BEING A DATA-INFORMED ORGANIZATION

If you are serious about being a data-informed organization, you need to have a clearly articulated theory of change. We will go over the "why's" and "what-for's" and help you get started creating or refining your own.

MAKE DATA WORK FOR YOU: DATA DASHBOARDS

Data dashboards can be a powerful tool to keep your organization data-informed and you don't need fancy software to make one! In this workshop, we will walk through the process of designing simple dashboards that can help organizations visualize program data, indicators, and other metrics.

TELL COMPELLING STORIES WITH YOUR DATA

Everyone has data, but it can be challenging to figure out how to use it in creative ways to show and tell stories of your success. This workshop will explore the basics of data storytelling and give you practice tips for data visualization.
