

The Community Caring Collaborative invites you to

Building Substance Use Informed Practices to Support Families & Students

a FREE 3-hour training

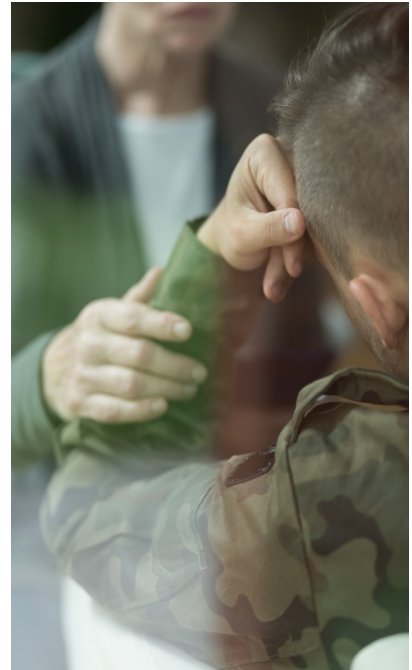

June 26, 2019 — 9 am to 12 Noon

Science 102, UMM—primary site

Multimedia room, WCCC— satellite site

Participants will:

- learn about the stages of change and skills to support students and families;
- gain a rich understanding of the complexity of substance use disorders and their impacts on brain development and cognition;
- identify how to build substance use informed practices by breaking stigma, building resiliency, and understanding recovery supports.

This training is designed for staff at all levels in Family Futures Downeast partner organizations. Staff from other CCC partner organizations who find this relevant to their work are welcome.
