CEI Women's Business Center's  
**The *Business of Women***  
Book & Discussion Group

*Do you have a business idea? Just getting started? Need to grow or refresh your business? Do you like to read and want to get inspired? Are there personal skills you'd like to strengthen for your professional success?*

Together we'll read about what it takes to think creatively, follow your passion and build your confidence. We'll use these books and others as a basis for our conversations and try out some free, online tools that can help us to think, plan, be inspired and take confident action.

We will hear from women within our community who have taken a leap in following their dreams.

Books are available on a first-come, first-serve basis from the Porter Library in Machias. Registration required at <https://www.ceimaine.org/?p=12782>
