Ethics trainings are not all created equal.
Recovery Coaches need an understanding of
ethics that differs from those of clinicians due
to their unique role while guiding someone
through their own recovery process.

*During the FREE 2-day training,
we will:*

- Understand what ethics are and why ethics are so important when performing Recovery Coach Services.
- Learn how to stay in your lane as a Recovery Coach
- Understand the decision-making process
- Develop guidelines for making ethical decisions
- Apply the new learning to your everyday work as a Recovery Coach
