Please know that a stable internet connection, computer and headset with a mic is required for this course, along with other technology requirements which are listed on the registration form.

Ethics trainings are not all created equal. Recovery Coaches need an understanding of ethics that differs from those of clinicians due to their unique role while guiding someone through their own recovery process.

During the FREE 2-day training participants will:

- Understand what ethics are and why ethics are so important when performing Recovery Coach Services.
- Learn how to stay in your Lane as a Recovery Coach
- Understand the decision-making process
- Develop guidelines for making ethical decisions
- Apply the new learning to your everyday work as a Recovery Coach
