International Overdose Awareness Day

Join us as we raise awareness about overdose, reduce the stigma of drug-related deaths, honor those who have lost their lives and support those impacted by overdose.

We will have a display that will represent the number of people who have lost their life to overdose in 2019 and 2020, along with a memory wall where pictures and/or stories can be added.

- Naloxone Available
- Harm Reduction Resources & Information
- Recovery Resources & Information
