

Seeking Overnight Coverage at Recovery Residence

Safe Harbor Recovery Residence for Women and Children, located in Machias, has an immediate opening for overnight coverage. We are seeking a small group of volunteers, and will provide stipends, training, and potential for long-term engagement with the residence and with Healthy Acadia.

There is an opportunity for anyone seeking to serve as a Maine RecoveryCorps member in this position. A RecoveryCorps member serving at Safe Harbor through August would be provided with a \$2,000 stipend and an educational award. Members receive training, professional development opportunities, and the option of signing up for additional service years. Many of our Maine RecoveryCorps members use the program as a launching pad for careers in the recovery field.

For more information, please contact Penny Guisinger, Recovery Programs Director at Healthy Acadia: penny@healthyacadia.org or (207) 904-7652.
